

I am totally opposed to allowing the noise pollution associated with cell phone users on airlines. The airlines are uncomfortable, unpleasant and crowded enough already without having half the plane talking loudly and disturbing other passengers who are trying to read, work, sleep or just relax. Please do not let this happen! Thank you for your consideration.

"Soon silence will have passed into legend. Man has turned his back on silence. Day after day he invents machines and devices that increase noise and distract humanity from the essence of life, contemplation, meditation. Tooting, howling, screeching, booming, crashing, whistling, grinding, and trilling [and talking on cell phones!] bolster his ego."

-Jean Arp, artist and poet (1887-1948)
